

Electrical works and disruption – Summer 2022

Throughout the summer of 2022 Woodford Park Leisure Centre will be undergoing extensive electrical works, both internally and externally, that will ultimately result in disruption to our normal services. This will include periods of partial closure whilst we are without power.

These works will include but are not limited to:

- Installation of improved LED lighting throughout the full Leisure Centre.
- Installation and upgrading of Sports Hall lighting (to meet Badminton England standards).
- Installation of improved external lighting surrounding the full Leisure Centre.

The works will also help towards the Council's aim of being a carbon neutral organisation by 2030.

For more information concerning these works please get in touch using the contact information below. Thank you in advance for your patience throughout this disruptive period.
